To leverage my work experience and technical background in a collaborative team environment to develop and maintain code, while continuously improving my technical skills. As a highly motivated individual and fast learner, I am eager to embark on an apprenticeship journey with Google with the purpose of expanding my knowledge and becoming a skilled developer. Committed to adhering to coding standards and quality measures, I am dedicated to contributing to projects and being a valuable employee.

## Professional Experience

January 2022 - Present

**Last-Mile Delivery Specialist** Roadie / Instacart / DoorDash / Uber Eats

- Conducted the final leg of delivery to customers' homes, utilizing detailed knowledge of local streets and neighborhoods to ensure timely and accurate arrival.
- Communicate with customers regarding any delivery issues or changes in delivery times
- Providing excellent communication and customer service that is reflected on my 5.00, 4.93, 4.90, 5.00 ratings respectfully across all apps

January 2022 - Present

**Contract Software Engineer**

- Worked as a member of a team to develop an NFT project, contributing to the design, development, and testing of the project which was never released due to pending litigation. (React, TypeScript, Solidity, HTML, CSS, Node.js, MySQL)
- Designed a product landing page for a New York City-based clothing brand "FREE" to showcase its latest collection while utilizing industry best practices and design principles to create a visually appealing and user-friendly landing page that functions across all devices and browsers. (React, JavaScript, HTML, CSS)
- Designed a web-based interactive 3D environment to showcase product packaging for an aspiring health and wellness supplement provider. (Photoshop, Blender, React, Javascript, 3js, HTML, CSS)
- Used Workspace, Slack, Teams, Zoom to communicate with clients and team members
- Used Git and GitHub for version control and writing thorough documentation

June 2021 - September 2021

**Fry Cook/Cashier** Popeyes Louisiana Kitchen

- Prepared food items such as chicken, fries, and biscuits according to Popeyes' recipes and standards.
- Working collaboratively with coworkers and upper management with clear communication to coordinate tasks to ensure maximum productivity and an optimized kitchen process.
- Provided friendly and efficient customer service, including taking orders and answering questions about menu items.

## Education

September 2017 - June 2021

**LIU PharmD Major** Brooklyn Technical Highschool at Brooklyn

3.7 GPA

## Key Skills

- Proficient in English, Russian, and Ukrainian
- Solid understanding of HTML, CSS, JavaScript, TypeScript, Node.js, Solidity, React, MySQL and MySQL Workbench
- Persistent in seeking out and mastering new technologies through self-taught learning that demonstrates strong motivation and a resilient mindset towards problem solving
- Effectively working with teams, clients, and customers to solve problems efficiently by communicating ideas and contributing to the workflow
- Proven ability to meet deadlines when working with clients by prioritizing tasks and maintaining effective organizational skills.
- Enthusiasm for learning new technologies and skills with a goal-oriented mindset that produces tangible results
